# Naa Diary

Ashwath Sukumar

No of pages : 105 pages .
No of words : 20,000 words .

SS Publications

1 | My name is Ashwath

This is my diary

I wrote this diary in 2025

I am 33 years old now

I was born on 2/4/1993 , 2nd April 1993

My father's name is Sukumar Ravilla

My mother's name is Sudha

I was born in Vijaya hospital , Chennai

The first 4 years of my life I lived in my native village

My native village name is Thanakulam

It is located near Manjankaranai village , near kootrodu and karanodai , 30 km from Chennai , near the banks of the kosasthalai river .

We moved to Chennai when I was 4 years old for my education .

I did my schooling in bhavans rajaji vidyashram , kilpauk , Chennai .

I did my college in Sri ramachandra medical University , porur , Chennai .

I studied mbbs . I did not do a higher degree .

I set up my own clinic and I am running it now .

I live with my family in my own flat in Anna nagar , Chennai .

I got married on February 2nd 2025 to Madhumitha sundararajan .

Madhu is my wife

I wrote this diary only for reading by family

Outsiders must never read this book
This book is to be read only by members of family
Things I know , Things I learnt , Things I felt , Things I saw , Things I heard , Things I thought , Things I experienced , Truths i learnt - I have noted down many of these things in this book .
This book must never be published
I shall print a few copies of this book and keep it safely in my house always
I shall print it under the name SS Publications
SS stands for Sudha Sukumar
My parents names
Even my clinic is named after my parents as SS Clinic
I dedicate this diary to my parents , my grandparents , my greatgrandparents , my ancestors , my gods and my wife .
This book is a work of non fiction

## 2 | Our family name is Ravilla

Ravilla name comes from Ravillavari Kandriga village near Gudimallam Shiva temple , near Tirupathi city , Andhra Pradesh .
Our ancestors are said to have came from Ravillavari Kandriga village and settled in present Tamil Nadu in Tiruuvallur district near Chennai .
The names of our earliest ancestors are not known to us .

The earliest ancestor whom we know by name is Swamy Naidu .
Swami Naidu → Muthu Naidu —> Bangaru Naidu —-> Thulasi Naidu —--> Sukumar Ravilla —-> Ashwath .
This is the lineage I know of .
Sukumar Ravilla is my father .
Thulasi Naidu is my grandfather .
Bangaru Naidu is my great-grandfather .
Wife of Sukumar Naidu is Sudha , my mother .
Wife of Thulasi Naidu is Rathnammal , my grandmother .

Bangaru Naidu had two wives , Govindamma and Munirathnamma , they were both sisters , he was first married to one of them , she died a few years after marriage due to illness , then he was married to her sister , even she died after a few years of marriage , he never married again .
Bangaru Naidu was born around 1900
He passed away in 1984 , he was 84 years old
Thulasi Naidu was born in 1927
He passed away on 2001 , he was 74 years old
Rathnammal was born in 1937
She passed away in 2012 , she was 75 years old
Sukumar was born in 1958 June 30
Sudha was born in 1968 June 16
Madhu was born in 1998 June 13

Bangaru Naidu lost his two wives by the time he was 30years old
When they were exactly born and when they exactly died is not known
He had 3 children from his 2 wives , Thulasi Naidu was the youngest child
Bangaru Naidu was born in Velliyur , near Tamaraipakkam , near Red hills , near Chennai .
He settled in Thanakulam in the 1930s and our family has lived there since then
Bangaru Naidu was born in a wealthy agricultural family
Our family has always been wealthy , for many many generations .

The first person to get a degree in our family is my mother , Sudha , she completed her bca , bachelor of computer applications , from Tamil Nadu open University in kilpauk , Chennai .
My father studied in Stanley medical college , Chennai , but he discontinued his studies in the final year , so he never got a degree .
Bangaru Naidu had no formal education .
Thulasi Naidu went to school but did not complete it.
Rathnammal went to school but did not complete it .
Madhu studied in Kingston engineering college , Vellore and completed her bachelor's degree . She worked in a couple IT companies too before her marriage . She is the

first woman in our family to have worked outside , all the other women in our family were homemakers and never worked outside .
My father did his schooling in MCTM boys school in Purasaiwalkam , Chennai .
Mother did her schooling in a girls school in Parry's corner , Chennai .
Madhu did her schooling in palur and pallikonda , near Vellore , near her native village Thirumalaikuppam .

Our family , we are all Telugu people
Telugu is our mother tongue
We are all Kamma naidus by caste
We are all forward caste
We are all Hindus by religion
We are Kamma kulam , Vishnu madham .
We are all non vegetarians
All of the wealth we have today was earned by Bangaru Naidu, everything we have today is because of him and his hard work , he set the foundation for our family .
In India the first cars were produced in 1949-50 , our family bought it's first car in 1951-52 , and we have owned cars and other vehicles ever since.

My father was born in Thanakulam .
Mother was born in Tiruvottriyur , Chennai , near Vadivudaiyamman temple .

Madhu was born in Thirumalaikuppam , near Palur , near madhanur , near pallikonda , Vellore .
My grandmother was born in Devadhanam village , near Ponneri town which is 15 km from Thanakulam village .
Thulasi Naidu was born in Kootrodu where Bangaru Naidu stayed for a few years after leaving Velliyur village , before ultimately settling in Thanakulam permanently in the 1930s .

TV's were first sold in India in 1975 , we bought our first TV in 77
computers were first sold in India in 1995 , we bought our first computer in 2001
smartphones were first sold in India in 2009 , we bought our first in 2011
we had our first gramophone and radio in the 1960s
our first record player in the 1970s
our first fridge in the late 1960s
our first Walkman in the early 80s
we have always been interested in new products that can make our life better
We got our first telephone connection in our village in the early 1990s
We got our first ac in 1990s

When Bangaru Naidu first settled in Thanakulam , he built a single story house with several rooms , this house was

right opposite to our present big house in Thanakulam village
In 1958 , Thulasi Naidu built the current big house we live in , in Thanakulam
He built it the year my father was born
The older single story house was demolished in the early 2000s after being empty for many years
The older house was built in the early 1930s and was demolished in the 2000s after nearly 70years
It was used by our family till the 1980s and was then rented out to other known people till the 1990s , in its last years it was unused and went into gradual ruin and was finally demolished .
The present house has been there for nearly 70years now and it is well maintained and in great condition .
It is our first home always , our most important home , because it is where our ancestors lived , my great-grandfather lived in it , my grandparents lived in it , my parents lived in it , me and my wife live in it , it is our family home , our most cherished home.

The flat we own in Chennai , we bought it in October , 2021 , it is our first own home in Chennai .
From 1997 to 2021 we lived in 4 different flats for rent , 3 in Anna nagar , 1 in kilpauk . In the first flat , near valliammal school Anna nagar f block , we lived for 6.5 years . In the second flat , in d block , around 500m from

the first flat , we lived there for 1 year . The third flat , in kilpauk , 100metres  from my school bhavans rajaji vidyashram , we lived there for 7 years . The final flat , in e block Anna nagar , 200m from valliammal college for women , we lived there for 10 years . Finally , after 24 years of living in rental flats , we finally bought our own flat in 2021 .

Bangaru Naidu did agriculture , that was his occupation .
Thulasi Naidu did agriculture , that was his occupation .
My father , Sukumar Naidu , he discontinued mbbs and came back to Thanakulam and did only agriculture for nearly 15 years.  Around 1994 , he built an office building in Ponneri town and started his own mini bank ,called Ashwini Benefit Fund limited.
Ashwini Benefit Fund operated for nearly 22 years , from 1995 to 2017 , it closed in 2017 .
After it closed , father retired and did not engage in any other occupation .
From 97 to 2017 father used to drive to Ponneri daily from Chennai for work , 6 days a week . Sometimes we would stay in Thanakulam and he would drive to work daily from Thanakulam house .

My Mother comes from a very wealthy family . Her father earned a lot and owned a lot . Her father died in a road

accident when she was just 9 years old , but by then itself he had earned a lot .
My grandmother also comes from a very wealthy family in Devadhanam .
My wife comes from a ordinary neat family , they are not wealthy but they are a good family .
As for my great-grandfather and grandfather and father , they were all always wealthy ,all born wealthy , even I was born wealthy and I shall always live well and comfortably .

My mother's mother , who is also my grandmother , her name is Kanakavalli , she was born in Ramapuram village near Arakkonam and Tiruthani . She has four daughters , my mother is the second daughter .
Kanakavalli was born in 1948 , she is 77 years old now .
Her husband's name is kumaraswamy Naidu , my grandfather , he was born in 1943 and died in 1977 .
His father's name was munuswamy Naidu.
After his eldest and favourite son kumaraswamy Naidu died in 1977 , munuswamy Naidu got the four daughters of Kumaraswamy married to well-to-do families in and around Chennai .
My parents got married on December 11 , 1986 , in Chennai .
They gave birth to me on April 2 , 1993.
Father did not want to have a child initially .

So they spent 5 years happily without having a child
Finally , my grandmother Rathnammal persuaded them to change their mind and have a child , so they had me .
Thulasi Naidu and Rathnammal got married in 1952
They had 4 children , my father was the youngest child .

3| I bought my first scooter in 2015 march , hero maestro , I still have it , it's like a brand new vehicle even after 10 years , it is a wonderful vehicle , I like it so much
I bought my first car , wagon r , in 2022 Feb , it also looks brand new after 4 years , it is a wonderful vehicle , like a chubby baby , I like it so much
We have had around 20 different cars over the years , like maruti wagon r , maruti swift , maruti Alto , Daewoo matiz , maruti 500 , jeep , hindustan ambassador , standard herald , premier padmini , Fiat and a few more whose names even my father doesn't know because he was a child back then .

Our family was very well known back then , in the 50s and 60s and 70s ,
Grandfather Thulasi Naidu was friends with politicians and movie actors and other wealthy people

Tamil Nadu chief minister Kamaraj attended the marriage of my father's eldest sister
Our house was used as a location in several movies
Tamil Nadu chief minister MGR and Andhra chief minister NTR both shot for movie scenes in our house and our land
From collecters to police officers and government officers , grandfather knew them all , they all visited our house regularly
Grandfather was a very popular and well known person known for his charisma and good looks and personality.
Father was also very good looking in his younger years
Great-grandfather Bangaru Naidu was tall , above 6feet tall , he was the tallest person in our family
Lots of people used to visit our house back then
Grandma used to cook wonderful food for them all
Grandma Rathnammal was a great cook and a great worker
My grandma Rathnammal and my mother Sudha , they are the two most hard-working people I have ever seen , they are both tireless workers , they could do lots of things which a lot of other women couldn't do
They are also the greatest people I have seen in my life
They are the most affectionate and caring people
They have a great dressing sense and good taste in everything
The two greatest people I have seen in my life are my mother and my grandmother

I can say that without doubt anyday .

My father and grandfather and great-grandfather , they are also great people , no doubt about it , each of them had their own special qualities and talents , but mother and grandmother are simply the greatest
Father has a lot of general knowledge , nobody in this world has read such a great variety of books like he has , nobody in this world has seen such a great variety of movies in so many languages like he has , he has a great interest in poetry and music and travel and news and everything else .
Father introduced me to a lot of things , he urged me to learn fully about the world and experience all the wonderful things in it , he always told me to keep an open head and absorb all kinds of knowledge and experiences
And that is what I did too
I saw movies in all the major languages of the world , saw movies of all the main movie making countries
I read lots and lots of books by authors of various nations
I gathered lots and lots of general knowledge
I developed a great interest in travel and learning
I must thank my father for introducing the world to me and encouraging me to learn about everything and take an interest in everything

Grandfather had his own style of living
In his prime he had lots of friends
He would go to wrestling matches , he was a fan of wrestling
He had a great interest in animals too
We had more than 50 large Delhi cows back then
We had lots of chickens and other animals too
Grandfather loved taking care of them
He could also read English newspapers
He had a lot of influence
He used his political influence to get my father and his brother seats in the same government medical college
Father was a great student and he scored great marks , but he couldn't get a seat because he was forward caste
So grandfather used his influence to get both sons seats in the same Stanley medical college
Grandfather was also the first person in our family to have gone on a flight , the first person in the family to drive a car too , he was a stylish person for his time
We had many servants in our home and many workers in our fields and rice Mills and drivers for our cars , that is how we lived back then
Even my father's sisters studied in Stella Maris college , then the top women's college in the state
So grandfather and grandmother gave their children the best education , the best food , the best clothes , the greatest affection , that is how they were

Great-grandfather , after his two wives had died , brought up his 3 children with maximum affection
He sent them to school though they disliked it and eventually dropped out
He raised them with the help of some close relatives and provided them with the best of everything

Similarly , my parents brought me up in the best manner possible , they gave me the best of everything ,
They gave me endless affection
My grandparents also gave me such great affection
My grandmother cared for me more than anybody else in the world
She showed me such pure affection
What an extraordinary person she was
She died in November 2012 after a 6 month long battle with brain cancer
She was healthy and active until those last 6 months
She was bedridden and losing weight gradually in those 6 months , seeing her in that state gave me much sadness
Why should such a great person go through such pain
That is what I kept on thinking
People like her and my mother , they are so rare in this world , the world will be so empty without great people like them

Rathnammal's mother , who is to me a grandmother , she was a wonderful person too , a most kind and affectionate person , her daughter inherited her soft and kind and caring nature .

So these are all the good people I have seen , I have heard about , I have lived with :
1.Bangaru Naidu
2.Govindamma
3.Munirathnamma
4.Thulasi Naidu
5.Rathnammal
6.Rathnammals mother
7.Sudha
8.Sukumar
9.Kanakavalli
10. Ashwath
11.Madhumitha

This family has never produced ordinary mediocre people , It has always produced wonderful people , our home is a place where many wonderful people have lived , it is a place where the greatest people have lived

But despite us being such good people , we have faced endless difficulties in this world .
We have seen so many bad relatives who have hurt us a lot and tried their best to destroy us , we have seen governments who have done us no good and who have tried to suffocate us and ruin us so many times , we have seen a totally evil public who absolutely don't like and support good people like us and will try to alienate us and finish us off , we have seen so many difficulties and obstacles .
Great-grandfather fought a court case with his siblings long back and won the case .
Grandfather fought a case with his siblings family long ago and won that case .
Father fought a case against his eldest sister and won .
Mother wants to fight a case against her relatives because they refuse to give her even a small portion of what her father earned , they want to steal it all for themselves
Then come the government cases
The government took a small portion of our land in 2009 for highway expansion and they still haven't given us compensation worth 1 crore to us , it's been 16 years and still we haven't got our compensation , we put a case in Supreme Court and even won that case , but we still won't get what is rightfully ours .

The government tried to close Ashwini Benefit Fund using a wrong law , we fought that in court and won that case too .
But the demonetization which was brought by the government in December 2016 , it killed our bank and left us with 1 crore loss ultimately , we suffered a great loss because of the governments sudden wrong move .
The government built the poondi dam in the late 1940s and it gradually reduced the water level in our lands and we suffered so much losses because of that too , we finally stopped doing agriculture because there was no water in our lands
When the water levels were good , agriculture was great , we made lots of revenue and bought more lands , but the government ruined our livelihood
The governments made it impossible for forward caste students to study in government colleges by increasing the cutoff marks to unattainable levels
Father was deliberately poorly marked in his board exams and he became deeply affected by it
He was a genius in school
He would sleep in class and the teachers would wake him up and ask him a question and he would answer correctly
Many a times they wouldn't wake him up at all because he would answer correctly anyway
Even the teachers respected him that much
He used to take classes for higher class students

He was widely expected by everyone to be the state topper
But the government unfairly marked him poorly and let him down
The government has never done our family any good
The losses the government gave us over the years made us take loans , we paid those loans back properly too , but we would never have taken those loans if the government had been proper
Sometimes the government takes bribes and still won't do the work
They will wantingly enter our lands details wrongly in the computer and they will ask us bribes to correct their own mistakes
If evil governments and evil  relatives did not exist , our net worth would be around 500 crores today , but we because we are surrounded by such evil our net worth is today only 100 crores . That is the amount of loss we have faced .
That is why my parents had only one child - me
My father did not want me to have bad siblings like he  did , he did not want me to suffer through court cases and emotional hurt like he and grandfather and great-grandfather did
Bad relatives and bad governments , they won't let us grow , they will only seek to crush good people like us
That is reality

Our family has done a lot of good to a lot of people
We have been kind to everybody
Father sponsored the education of many children while he was running his minibank
Grandfather , grandma and great-grandfather - they used to prepare food for lots of people and gave it freely to passers by
We treated everyone fairly
But no one was fair to us
They always wanted to hurt us and cheat us and Rob from us and betray us
Government and relatives and society - they are all traitors , they are all totally untrustworthy and evil , they will only allow mediocrity to flourish , they will never allow good people to flourish , that is how they are .
Our family has given a lot to charity too , our family did everything good they could , and they only got great hurt in return
That is what puzzled me
We are doing good but only getting bad in return
We are working hard but only getting losses ultimately in return
What is going wrong
Why is it all going wrong
That is a question which has baffled me a lot

My mother had uterine tumor surgery to remove her uterus , she had piles surgery , she had breast surgery , she went through so much difficulty
Father had a couple heart attacks and sugar and his weight reduced by many kilos , he used to be strong and big and very healthy and very active , today he is thin and not that strong though he is still healthy and  active
Grandmother had brain cancer in her last months
Grandfather had throat surgery due to his smoking habit and he had nervous disease too in his last 15 years
Great-grandfather was healthy till his very end and he passed away in sleep peacefully
I had multiple shoulder dislocations on both arms , it was so painful , the arm would come out of the shoulder joint and I would painfully put it back inside without getting any surgery done , I had about 25 dislocations till now
I fell off the tractor when I was 6 months old and had multiple fractures but somehow escaped with no permanent injuries and became normal and healthy again
Why do us good people have to suffer so much pain despite being good
I could never understand it
The world  is such an unfair and cruel place
That is what I learnt

4 | A turning point in my life was going to college
I scored 96% in my 10nth board exam and 94% in my 12th board exam , my score in main three subjects was 96.66% in 12th board exam , but still I couldn't get seat in any government medical college in Chennai , and my parents were unwilling to send me anywhere else to stay in hostel and study .
So they paid 70lakhs in total over 5.5 years and got me into a private medical college in Chennai , Sri ramachandra medical University .
In the first 2 years I studied with full enthusiasm and got good grades but no matter how hard I studied I couldn't get more than 81 or 82 out of 100 .
The textbooks were huge , none of it made any practical sense , it was highly stressful
Then I found out that a lot of students were paying money to get passed in the exams
It was all about money
Pay money and get passed
Pay money and get the highest marks and become a topper
Pay money and get gold medals
Pay money and get a of seat
Pay money and get a dm seat
Pay money and get PhD
Pay money and get foreign recognition and awards
It was all about money

I became disillusioned with education
I learnt that this was how things were in government colleges too
In government colleges most seats were given to politicians and these politicians gave these seats to members of their own caste and community in order to get their votes
A lot of the seats were given to backward castes because they are the majority in our country , so they are deliberately given all the seats , only then will the politicians get their votes and win the elections
That is how it is in this country
Even when was father was studying in Stanley government medical college , students there would pay professors money to pass the exams , that is how it was 50 years ago itself
There is no merit anywhere
There is only cheating everywhere
That is what I learnt
It is all about money
In government colleges there is reservation
In government offices there is reservation
Backward castes get all the jobs
Forward caste like us get hardly anything
That is the reality

I stopped studying in my final years in college

I refused to study in a system that has no merit at all
I study all day long and get 80whereas one pays lakhs and gets the gold medal
I lost interest in that education
Finally my parents paid money and got me passed in the exams and I completed my degree
I refused to pay crores for a postgraduate degree and stopped with just my mbbs degree
My father has many doctor friends
One of those friends , who had a clinic in porur , I went to his clinic and took training under him for many months , then I opened my own clinic in Anna nagar on 21st main road near Prabhu tailors shop and little hut restaurant .
I charge only RS.100 as fees . I check bp for free , I check sugar for RS.50 , a lot of patients are happy with my treatment , my treatment method is simple and effective , I don't prescribe too many medicines like other doctors do , I don't write unnecessary tests like other doctors do , I don't overcharge patients and rob from them like other doctors do .
Also I take commissions from pharmacies and medical representatives and hospitals and lab centres like other doctors do .
Many of my patients keep coming back to me again and again , they like my simple and successful method of treatment .

I work honestly , even though I make no profit at all , my clinic only gives me a loss ultimately because the rent I pay each month is more than what I earn each month , so I only see a loss from it despite being a honest and good doctor .
That is a good persons destiny here .
I might be good , I do quality work , I do honest work , but still people won't support me and help me me succeed , that is how society is here .
People will support dishonest doctors and give them lots of earnings , but they won't support one good honest doctor .
That is reality ,and I accepted it , I accepted that this is how society is , it was always unfair and unjust , society was never good at all , it can never be good , it will always be totally evil .

We have land and sheds which we want to rent out , but no one will rent it even though the rent we demand is fair .
We are trying to sell a portion of our land , we are asking a fair price , but nobody wants to buy it at a fair price , they want to buy it cheaply from us so that we will have a loss whereas they will profit .
In everything we do , society has constantly placed barriers and prevented us from rising and becoming peaceful , society has constantly given us tension and constantly tried to hurt us some way or the other.

Where I live , there is cheating everywhere
the auto drivers cheat , they overcharge you and are also rude to you
the taxi drivers cheat even more
the governments don't lay proper roads in many places
they charge heavy toll at highway toll plazas
nobody drives properly , people drive rashly
people are rude and arrogant everywhere
People have no respect and courtesy for each other
Restaurants cheat you by serving poor quality food at high rates
Hotels charge you high rates for even normal rooms
Temples have special tickets and charge you high rates too
Or they have massive queues in temples where people push you and shove you
Doctors and hospitals try to rob all your money by charging so high for everything
Government offices ask for constant bribes from you
Getting proper domestic servants is difficult
Everybody tries to milk as much money as they can from you
Nothing is easy here
Everything is tough here
Life is tough here in this world
If you are not alert for even one moment , somebody will cheat you and steal from you

There is no kindness or affection in society
There is only greed and pure evil in society
They keep increasing prices of everything every single day
But they don't improve the quality of anything
There is endless inflation
There is no peaceful living here
That is the society I live in .

Here people will constantly try to brainwash you with some ideas in order to make profit
There will try to brainwash you into believing that a bad product is good so that you will buy it and they will make a profit from it .for you , it will be a loss , but for them it is profit , which is all they care about .

They will constantly keep trying to brainwash you with wrong ideas , if you believe them you will get fooled , they will make a profit by making a fool out of you .
That is all that will happen .

A good person has to always be alert here ,has to ways be careful here , has to always be fully focussed here , only then can we escape from falling into all the endless traps society has laid out for us.
Beware of society .
Society is worse than the jungle
People here are worse than the wild animals in the jungle.

5 | when I was young  my parents used to take me on temple tour .
4-5 days we would go to some area and visit all the main temples in that area and come , we would often go to thanjavur and trichy district and madurai , we would go to other areas too , it was so wonderful , all those temples were so wonderful .
Temples are the greatest places I have seen
They are the most wonderful places
When I was young my parents used to take me on temple tours
Now I take them on temple tours
Not just temples , we see museums and forts and palaces and waterfalls and caves , everything , we see all kinds of nice places , all kinds of interesting places .
Travelling is a wonderful thing .
I like travelling very much .
We see many new things , we eat new foods , we learn new things , it is a great thing , travelling is
It is necessary and important to travel
Being at home and seeing everything on the phone screen or TV screen won't give a clear idea about many things
You need to go to those places and see them in person
Only then will you get a clear idea
So travelling is an important part of life

I am the first person in our family to drive an automatic car

My WagonR is automatic
Father and everyone before him drove only manual
Automatic is easier to drive and saves a lot of strain
Automatic is best always
Always prefer an automatic car , that is best
Father and grandfather and great-grandfather , they knew how to ride cycles , but they never rode bikes and scooters
I am the first male in our family to buy a scooter and use it regularly
Madhu knows how to ride a scooter
I taught her how to drive the car too
Mother and grandmother did not know how to drive a vehicle
A scooter is a most useful and wonderful vehicle too
A bike is ugly , but a scooter is pretty and most useful
Scooter and Automatic car , they are my vehicles of choice , they are the most ideal vehicles , they are the most essential vehicles too
I go to clinic daily on the scooter
Car I use to go on trips and other nearby rides .
Sometimes I walk and come to clinic
Madhu and mother bring breakfast on scooter and give it to me
Scooter I use only for travelling within the city
Can't travel too far on a scooter , it can get tiring

In 2007 , when mother was nearly 40 years old , father persuaded her to do bca degree
Mother was 18 when she got married , she completed school but never went to formal college
So father told her to get a degree
And she successfully got it in 2010 at 42 years of age
It was a three year course , classes only on weekends , mother attended all classes and successfully passed her exams without any arrears .

On the other hand , after I stopped studying in college , I accumulated 14 arrears , but my parents paid money to get me passed in all the subjects .
I got into college in 2011 , came out of college in 2019 .
I finished college 2 years late .
But still I became a good doctor
Practical knowledge is more important to become a good doctor , high marks and mugging up huge textbooks is not needed
And I gained that practical knowledge
It was my mother who supported me a lot during my tough period in college
I got my degree because of her
Without her help I would never have become a good doctor
She pushed me to gain practical knowledge and she helped me become a good doctor

I owe it all to my dear mother
What a great person she is

During my tough period in college , for several years I lost belief in my gods
I stopped praying to them and I stopped thinking of them
Doing so made me feel so empty
After several years like that ,  my gods pulled me back into their fold again
I started believing in them again
I started thinking about them fully and affectionately again
I felt happy again
Life without them is empty
They want me too as much as I want them
They will never let me go away from them
They will test me and teach me
And they will always keep me with them
Where they are is where I belong
My gods are as important to me as my parents and grandparents and wife and ancestors
My gods , they are the greatest of the great
There is nobody like them
They are the ultimate

Mother likes reading novels and magazines and news

Grabdmother also liked reading novels and magazines and news
They both liked music and listening to the radio
They don't see movies too much
Now and then a big movie will come and they will watch that only
They don't watch everything like father and me do
Madhu doesn't read books
She watches movies
She sees Instagram regularly
That is her main entertainment

Me , I absolutely dislike social media
Social media is a rotten place
It has to be avoided completely
No good will ever come from it
Facebook , Instagram , Snapchat etc… - I tried them all , they were all rotten websites , they are harmful websites , they need to be avoided completely .
However , Madhu continues to use it and I don't stop her because I know she is a careful and responsible person .

In 1991 , we sold a portion of our lands , agricultural losses over the years led to us taking some loans , and we had to sell a portion of land to pay off those loans
Also , with that money father built his office in Ponneri and ran it for more than 20 years as said earlier

In 2021 , that Ponneri building was sold off to buy the flat we own and live in now in Anna nagar , Chennai , our first own home in the city .
Our current address is R14/48 , Door no 7 , 4th floor , Seshadri apartment , 6th main road , r block , Anna nagar , Chennai 600040 .
At present we have about 19.5 acres in our village , and that includes our village house and godowns .
A marriage Hall and a restaurant building has been built in our land , we own those buildings , we have rented out those buildings to others , they use those buildings and pay rent to us monthly .
We are planning to sell a portion of this land to buy an independent house in Chennai and make improvements to our village house and possibly buy a rental building in Chennai and invest money in fixed deposits in banks for safety in the long term .
Let's see how it all works out .
The land we own now , it has been in our ownership for nearly 100 years now .
Our family was the first to settle in Thanakulam
Many labourers who came to work in our fields also settled there and the village of Thanakulam was formed that way .
Many of our relatives live in nearby Manjankaranai village .
When elections come , mother and father put their vote in Manjankaranai .

My voting centre is in Anna nagar , but I have never voted till now , I will never vote in my entire life , that is definite .
That is because
All nations are bad
India is bad
China is bad
Usa is bad
Uk is bad
All nations are bad
All governments are bad
All political parties are bad
All politicians are bad
They are all rotten criminals
And none of them will ever do us any good
So why should I vote for any criminal
I don't want to
Which is why I never voted in any election till now
A world without nations and governments and politics and elections and political parties and politicians , that is a nice world , that is a world I want to live in .
I don't like democracy , it is an ugly system where bad people are equal to good people and bad people can even control and rule over good people , it is an ugly system where good people are crushed and suppressed .
Democracy , dictatorship , communism , socialism , capitalism , monarchy - all of these are ugly systems , I want to live in a world without all these ugly systems .

Man created money and money has ruined man .
Money has made all our lives extremely complicated .
And the ever increasing prices of everything has made life so strainful .
I wish to live in a world without money and banks and stock markets and bonds and equities and futures and investment forms and economics and economy and economics statistics , that would be a much peaceful world , without all this nonsense that is ruining our lives every single passing day .
Stock market is a total fraud .
Never invest money in stock market , you will definitely lose it sooner or later .
Investing in stock market is like gambling
Never gamble with money
Never gamble at all .
Gambling is bad , it only harms people and does no good at all .

Father has absolutely no bad habits , no drinking , no smoking , nothing ,he never had any bad habits , he was always clean .
Grandfather and great-grandfather had a regular smoking habit and they drank alcohol very rarely too.
Me , I absolutely hate the smell of tobacco smoke , it suffocates me . As for drinking , I have tasted alcohol a few times in my life and I did not like it at all because it

was very bitter , it was like a bitter cough syrup , it was not tasty at all , i wondered why people drank this bitter cough syrup so much , it is such a waste. So after tasting it a few times , I never consumed alcohol again , I am fully clean .
As for drugs, I will never touch it , I will never gamble with money , I will be as clean as I can always .
The women in our family never had any bad habit , they are always clean .

In our family , we always eat well , we eat many kinds of tasty non veg food , grandmother and mother are great cooks , madhu is learning now to become a super cook like them , we eat many kinds of tasty veg food too , we drink juices and milkshakes and eat ice creams and chocolates and many varieties sweets
We enjoy food a lot
For a healthy life  good food is very important
You need to eat well and be strong and healthy and active always
That is best
Madhu doesn't eat non veg on Saturdays due to religious reasons
But me and mother and father eat non veg on all days
That is what is best
We go to temples and then we go to a non veg restaurant and eat meat fully

That is how we are
We don't follow strict religious customs and rituals and superstitions
We are relaxed and flexible
We pray affectionately to the gods and we eat healthily whatever we like
That is how we live
I wish I lived in a world without religious customs and rituals and superstitions , I have absolutely no liking for these things .
Madhu doesn't eat non veg for 1 entire month in every year , purattasi month they call it .
But me and mother and father don't follow that custom too
We eat non veg the entire month
We love the gods a lot
And we love food a lot too
We can't live without good food
Good food is absolutely essential for life and happiness and good health

Father was an excellent volleyball player in his youth
He was an excellent badminton player too
I used to play with him regularly when I was young
Now he's older and can't play like he used to
He has a great interest in sports
And he was an active sportsperson in his youth

He could run lots of kilometers  without getting tired
Me , I am a good badminton player
I can play table tennis a little
I can play basketball a litte
I was a shotput champion in school
 I got my shoulder dislocation probeln due to lifting heavy weights
I got air crack in both my knees after playing basketball on a hard concrete surface
So I gave up on sports to avoid any injury
Mother was also a shot put champion in her school
In our family we never went even once to the gym
We either exercise at home or go for walking or play games at home itself
In our village house there used to be a basketball hoop and badminton net , we used to regularly play badminton and throw basketball whenever we went there .
I like playing games as a form of recreation
It energizes you and refreshes you
But I don't like competition
I don't like competition and rivalry and medals and stadiums and all that .
For me , playing games is just for fun and recreation and exercise , I don't like commercial sports at all .
Father watches and follows sports a lot. He watches men's cricket and women's cricket regularly , he watches fifa world cup , he watches Olympics , he likes sports a lot .

Mother and madhu very rarely watch sports , they are not interested in it .
Me , I sometimes join my father and watch along with him , but generally I prefer movies more than sports any day .
But I have a great knowledge about all the different sports and all the famous players and statistics and everything .

Father never loved anybody before marriage .
Grandfather and great-grandfather also never loved anybody before marriage .
Me , I was interested in loving and marrying a nice girl since my school days , the feeling started in me in 10nth std and since then i saw several girls over the years whom I liked , I found them beautiful and suitable for me , I tried talking to them and expressing my liking for them , but they all refused me , they all rejected me , so I never got the chance to love and marry someone .
I always wanted to be romantic , but nobody allowed me to be romantic before marriage .
The first person I was romantic with was my wife .
Ugly things exist in our society like brothels and prostitution and call girls , I never liked such things , I always stayed far away from such ugly things .

I am a good looking person , and I always dress well and neatly , I am always clean and clean shaven and proper in

my behaviour , but still those girls weren't interested in me , it was quite disappointing . I was a very nice boy , a well behaved and proper boy , but still I was rejected , it hurt me back then . I was only looking for a genuine relationship , not frivolous ugly relationships like youth today engage in , I was a genuine person , yet I was rejected , it was disappointing honestly .

Today youth engage in many ugly things like dating , friends with benefits , hookups , casual relationships , living together , open relationships . They engage in these ugly things and completely ruin their lives , they ruin their heads by doing such sick things . I never liked such things , I never wanted such things .All I wanted was genuine affection and a genuine companion for life .

And I got married quite late, at the age of 32 almost .
We looked for a suitable girl for more than 3 years , and finally we found Madhu .
We looked for a girl who wouldn't work after marriage , we looked for a Telugu girl from Kamma caste , we looked for a girl from a good and decent family , we couldn't find a girl with all these features for nearly 3 years and finally we found Madhu .
Our engagement was on December 5th 2024 in Benz Park hotel in Vellore city , our marriage was in Green Park hotel in vadapalani Chennai on Feb 2 2025

Our wedding had no reception , only engagement and muhurtham
I did not like the idea of a reception , a reception is a completely unnecessary event .
Our wedding also did not have any other unnecessary events like sangeet .
My parents wedding also had only engagement and muhurtham , my parents wedding also had no reception at all .so it has become our family custom to have no reception , we have only engagement and muhurtham .
My grandparents wedding also had no reception , there was no concept of reception back then in the 1950s , that concept came only in the 70s and 80s .
Both Benz Park and Green Park are 5 star hotels , the food was very good in both events , around 300 people came for reception and around 600 came for muhurtham .
I first met madhu on Oct 21 2024
We talked to each other
We found each other suitable
So we said yes to the wedding
That was our first meeting
From Oct 21 2024 to Feb 2 2025 , our wedding got over in 100 days .
Me and my parents wanted the wedding to go fast because we felt there is no point in stretching it to 6-7 months like other people normally do , everybody gets bored and tired when made to wait for so long .

So we did it in 100 days .
It went fast .
It was exciting, it was jolly , it was entertaining .
On Oct 27 2024 , we visited madhus house in Thirumalaikuppam  for the first time
We talked then too
That was our second meeting
Our third meeting was on November 17 2024
We went to kanchipuram to buy silk saree for madhu
We talked much more that day
We went together in car , just the both of us , for the first time that day .
Next day , on November 18 , 2024  I messaged her on WhatsApp for the first time
And we started talking regularly from that day onwards
From that day till now we are talking endlessly
For our honeymoon we went to UAE for a 1 week trip , visited Dubai Abu Dhabi and Sharjah , saw Burj khalifa , many many temples , two temples ,markets and other things .
4 months after our marriage we went along with my parents to Goa and Karnataka and Maharashtra , saw many temples and beaches and other tourist attractions .

6 months after our marriage we went to Europe on a 15 day trip , went to Italy Austria Switzerland France and Uk .

It's been a year since we got married , it has gone eventfully , so many nice experiences we had .
We also had our share of fights and arguments ,but we became normal again quickly and became a loving couple again quickly .
In our family , all of us get bad moods now and then , we shout at each other , we argue with each other , we fight with each other , but we become normal again quickly , we become affectionate again quickly , that is how a normal family is .
In a normal family , fights and quarrels and even misunderstandings are common , nobody can be perfect at all times , everybody makes mistakes now and then , so we fight and we become normal again , that is the best thing to do always .
We call each other bad words too , but we become affectionate again , that is how a normal family is .
Fighting and quarreling now and then is a normal part of family and love and life .
One must understand this , only then can one live a happy and nice life .

6 | First I thought of writing a book for the public to read
I thought of getting the book published
I wanted everybody to read it.
I wanted to become famous

But ultimately I dropped the idea
The reason was this
I want to freely express myself through my book
But if I was writing for the public I cannot express everything openly and honestly
because the public will not accept it
In order for the public to accept my book I have to make compromises and adjustments
I have to restrict myself , I cannot say everything I think and feel because they will protest against it and condemn it and even ban the book then
They will put court cases against you
In extreme cases they will burn the book and even try to attack the author and his family
That is how it is here in this society
Society will never give you absolute freedom of expression
Society expects you to behave as it wants
If you do not behave as it wants then society will punish you and alienate you and hurt you
Society always suppresses you
Society always imposes rules and laws and restrictions on you
Even if society was proper and everybody living in it are good and everything in it is proper and perfect ,
still it will not be ideal
still it will not give you real freedom
Society is always a very unideal thing

It can never be ideal
An ideal society is impossible
No matter how advanced and civilised and developed a society seems
still you will feel restricted and suppressed in it
still you will feel the lack of full freedom
That is how society always is
That is why I did not write a book for the public to read
I chose to remain fully free in my own private space
I realised I could never have such freedom in society
I couldn't compromise my honesty and openness for the sake of fame and acceptance from society
I might win many awards and prizes
But still I won't feel free
I will feel restricted , I won't feel like myself
I will just become an actor like everybody else
Giving a performance for the sake of money and fame
It will all make me feel very bad and very suppressed
So I decided not to write for the public
I chose to remain fully free in my own private space
I chose to remain myself in my own private space
That is what I did

I rejected society , I rejected fame and awards and prizes and rewards , I rejected so called advancement and civilisation and development , what use is it all when you cannot be yourself in it .

I remember one incident :
In 2013 , when I was in college , I appeared in a college class test , it was like an exam .
A lot of students kept their phones open beneath the desk and were copying answers from the phones to their answer sheets .
They were copying openly and even the examiners in the hall allowed it , they allowed this open copying .
I studied hard for that exam , but everybody else was copying and getting higher marks then me .
So I complained to the college management about this
And this is what happened
They openly lied that no copying happens in the exams and they asked me to apologise to them for lying
They called me liar and asked me to apologise
If I refuse to apologise they will call my parents and warn them
I did not want to involve my parents , I did not want them to feel hurt , so I apologised and they let me go
They warned me never to complain again
That is how this society is
It protects the cheaters and punishes the honest people
I felt very embarrassed and hurt
I did nothing wrong , but I was the one who got insulted and warned .
I learnt how society was that day
I had many similar experiences over the years

A good person is helpless here really
You somehow survive here and get through it all without getting hurt ,thanks to your gods
That's how it is here
I rejected the morality and values and principles and ideals of society , it is all trash , it is all designed to make you a slave to the system .
Society is bad , society is evil , there is no doubt about it
I cannot cheat and steal like others do
I don't have that bad nature in me
So I choose to stay aloof from society
I choose to live my life happily and freely in my private space with my family
I choose to take proper care of my home and belongings
I will not involve myself in any outside matters
I will live carefully and intelligently
That is the best thing to do
Suppose I became a revolutionary and activist and protested against all the wrong things in society
then sooner or later they will surely kill me
They will kill me for protesting against them
Or they will hurt me badly or put me in jail and torture me
That is how society is
If you point out it's mistakes It will come after you and try to destroy you , it will not let you live in peace
It will make you feel miserable and helpless and ruin you
So trying to change society is impossible

One must remember this
You can never change society
Society can never be good
The best you can do is stay aloof from society and live your life as peacefully and happily as possible with your family
Never try to be a revolution or activist , it will never work out . Don't hurt yourself , it is not worth it .
Nobody here will listen to you
They will never understand you
People have all become performers here
They create videos and upload it on YouTube
They have all become actors and singers and critics and dancers and influencers and writers and all that
They think they know everything
They will refuse to learn anything
They think they are perfect and good and great
They are convinced that everything they do is right
They will even justify all their mistakes as right
So you cant tell them anything
They will never listen to a word you say
They won't care who you are
You are nothing to them
So don't make any unnecessary attempts to convince or change people
You can never do it
All you can do is live your life happily and well

So you do that alone
That is enough .

When I young , father had a lot of expectations about the world
Globalisation began then
He thought the world would become beautiful and wonderful in every way
But things have only become worse
Globalisation ruined the world
Before 1990 there was absolutely no traffic in Chennai
You could drive everywhere freely and safely
And there was no pollution at all
Today there is extraordinary traffic and pollution here
Everybody drives rashly and there is no safety at all
When I was young the price of gold and silver was very less and we could afford to buy it
Today the price of gold and silver has gone so high and it is nearly impossible to buy gold anymore
20 years back the price of petrol was so cheap
Today it is so high and they won't reduce it at all
Things are only becoming more and more worse here
Nothing here is really improving
There is traffic and congestion everywhere
There is endless construction and pollution everywhere
They are destroying trees and greenery everywhere

In the name of development , people are engaging in endless destruction and madness and horror
Daily I go on roads filled with potholes
They won't lay these roads unless elections are coming near
Politicians will give money and freebies to the lower classes in order to win their votes
But they won't give us our compensation for the piece of land they took from us
They have money to hold massive political rallies , but they won't have any money to give us
All bad things are happening openly here
Nobody is doing anything about it
Everybody is participating in it and engaging in whatever cheating and stealing they can
That is modern society for you
They will create fake economic figures and statistics to mislead you and brainwash you
They will create fake news to mislead you
Internet is flooded with fake news
You don't know what is true and what is false anymore
They create lots of fake history too
They create fake historical images with artificial intelligence technology and they lie by saying it is genuine
All of the world history I read over the years is false
People lie in everything , they hardly speak the truth
They twist everything to suit their needs

What can one do in such a world
What can one do in this situation
One feels hopeless
One feels helpless
I want to know the truth about everything
How can I know it
What is my meaning and purpose here in this life
What am I supposed to do
I want answers to all these questions
And I won't stop searching for them

7 | I wish I lived in a world with no cities
I wish I lived in a world with no skyscrapers and malls and mega buildings and endless construction
I wish I lived in a village ,
In a beautiful spacious comfortable house
Surrounded by trees and fields
I wish my gods had given me many powers
I could create any food I want in an instant with just the power of my thought
I think about it and it is created
I think about chicken kurma and chicken kurma is created in an instant

I think I want a glass of badam milk and a glass of badam milk is created in an instant
Similarly , not just food products , I can create any household items with my powers
I can travel anywhere with just the power of my thought
I want to go to Africa and in an instant I am transported to Africa with my family
How convenient that would be
I wouldn't depend on society for anything then
I would use my powers to wipe out all the bad people in society
99.99% of the world's population would be wiped out as a result
Only the few good people in this world will remain
No pollution and traffic anywhere
No money and greed anywhere
No politics and political parties and elections and voting anywhere
No politicians anywhere
No nations and governments and borders anywhere
No alcohol and tobacco and drugs anywhere
No bars and nightclubs and discos and raves and casinos anywhere
No brothels and prostitution and pornography anywhere
No wars and weapons and violence and armies anywhere
No politics and economics and crime and prisons and police stations anywhere

No disease and hospitals anywhere
How nice that would be
No laws and courts anywhere
No need for news and newspapers too then
No need for internet and computers and smartphones then
No need for technology and business and commerce then
No need for movies and sports and plays  too then
No need for amusement parks
No need for luxury brands
No need for rituals and customs and superstitions too
How nice that would all be

No fake swamijis and godmen and ashrams anywhere
No cemeteries anywhere
No fake religions like Christianity and Islam and Judaism and Sikhism and Buddhism and Jainism and Shinto and Taoism and Confucianism
I would destroy all these fake religions completely
I would wipe out all their temples and monuments completely
Only Hinduism will be there in the world
All other religions will be destroyed because they are all totally fake
Telugu will be the only language in the world
All other languages will be destroyed
Ugly languages like Tamil and English and Hindi will be destroyed

I will destroy all the lower caste people too
They are all useless
Only Kammas and Naidus shall remain
All other castes shall be destroyed
There will be no stock market and bonds and equities and banks and financial institutions
There will be no billionaires
There will be no theatres and stadiums
Nature everywhere will be pristine and pure
Temples everywhere will be clean and empty and peaceful
Shops and industries and factories will not be needed as I can produce everything with my powers
Roads will not be needed to as I can move everybody from place to place in an instant with my powers
I destroy all the bad people with just my power of thought
I think they must be destroyed and they all get destroyed in an instant
They disappear and cease to exist
No bloodshed , no Gore , just a quick instant death
The few good people here can live peacefully as long as they are here , and then they can go to the gods once their period here on Earth is over
How perfect and simple all this will be
How peaceful and happy it would be to live in such a world

I adjust and live in this present world I am in solely because I have no better choice

If I really had powers , then I definitely would create the world I described above
I am being very honest here
I am sick and fed up of the world I am currently living in
I have already had enough of all the endless nonsense in this world
I really wish I had powers to create the world I described
That is what I want to say
As I said before , I could never say such ideas to the public , they will try to kill me then
But I say it freely in my private space
I can live freely and happily in my own private world

So basically I only need the following things for a good life
1.Family , family is the most important thing in life
2.My gods
3.Temples
4.a spacious house with all basic needs and comforts provided
5.good food and good health
6.heaven , I want to go there after this life , I want to love there forever after this period here on Earth .
7.statues and paintings of my gods , they are to me treasured possessions
8.a beautiful and pure and pristine nature
9.happiness , good feelings , good thoughts , good sensations , beauty .

10.Essential knowledge about everything .
These are all the things I need .

And I rejected all the following things :
Society , Nation , Nationality , Patriotism , India , Bharat , Hindustan , national flag , national anthem , government , borders , all countries , wars , weapons , violence , alcohol , tobacco , drugs , gambling , bars , nightclubs , discos , raves , casinos , stripclubs , prostitution , brothels , pornography , money , banks , economy , economics , business , commerce , technology , computers , smartphones , all languages except Telugu , all religions except Hinduism , movies , music , stadiums , theatres , dating , hookups , casual relationships , open relationships , friends with benefits , social media , news , newspapers , world history , swamijis , godmen , ashrams , politics , politicians , political parties , elections , voting , democracy , communism , socialism , capitalism , cemeteries , skyscrapers , malls , cities , police , police stations , law , courts , prisons , TV's , gyms , luxury brands , rituals , customs , superstitions , morality , values , principle , ideals , idealism , social service , charity , luxury , fiction , novels , fictional stories , philosophy , linguistics , archaeology , anthropology , psychology , psychiatry , science , scientific theories , awards  , prizes , medals , trophies , monarchy , dictatorship , Kings , kingdoms , empires , emperors , civilisation , development ,

advancement , intelligence agencies , aliens , ghosts , paranormal phenomena , disease , hospitals , industry , education system , schools , universities , colleges , old age homes , exams , poverty , billionaires , fashion , fashion shows , IT , acting , dance ,IQ , lower caste , all castes except Kammas and Naidus , speaceflight , astrology , astronomy , tradition , culture , festivals , vegetarianism , celibacy , insurance , stock market , bonds , equities , futures , Dharma , virtue , pure reason , logic , pure realism , yoga , meditation ,mens coats ,mens suits , lehemgas , sherwanis , tattoos , actors , acting , celebrities , attitude , show off , clubs , associations , loans , emi's , debt , Nirvana , spirituality , ambitions , dreams , goals , achievements , swimming pools , bathtubs , basements , attics ,wooden houses , chandeliers , false ceilings , shoes , oratory , marriage halls , convention centres , slums , taxes , tariffs , bills , salary , influencers , artificial intelligence , crypto currency , electric vehicles , diesel vehicles , windmills , undersea cables ,data centres , atoms , molecules , dark matter , dark energy , gravity , gravitons , big band theory , theory of evolution , proteins , vitamins , carbohydrates , diet , six packs physique , moustache , strange ugly hairstyles , dirtiness , gaudiness , vulgairty , degenerate activities , smuggling ,mens ties , high heels , lipstick , cosmetics , nail polishing , plastic surgery , Botox , make up , public baths , sauna , spa .
I reject it all within myself .

In this world I am forced to put up with many of these things because I have no other choice .
Given a better choice , I would definitely reject all these things .
I see no value in any of these things .
They are not at all needed for the higher life .
Therefore I reject then all within myself
By doing so I feel much more free and happy .
In this world I engage in a many of these things only as a procedure , because I have no higher choice , otherwise I place absolutely no importance in these things , they are not needed for the higher life , they are needed just for the temporary period here , they are just temporary things , just temporary trash we have to deal with here .
That is how I think and feel .

8 | Telugu is the language of the gods
Telugu is the most beautiful language
Telugu is the Divine language
The gods speak only one language - Telugu
They speak a more pure and beautiful form of Telugu than the form in which we speak it here in this world
Telugu is the most wonderful language

Never give up Telugu for another language
You may live in Tamil Nadu
But never give up Telugu and adopt ugly Tamil as your language
You may live in USA
But never give up Telugu and adopt ugly English as your language
Those who give up Telugu and adopt other languages
They are ignorant , they are doomed

I used to see movies in many languages
Now I see movies only in Telugu
I see even important other languages films in their dubbed Telugu version
I don't care much for movies
They are just a time pass in the absence of anything better to do
But I care for Telugu
So I see movies only in Telugu nowadays
I prefer original Telugu language films always because they alone  suit my wavelength
Other language films absolutely don't suit my wavelength , but still I watch important other language films in Telugu now and then
Be it movies or songs , Telugu movies and Telugu songs are my preference , they are my main entertainment .

I wasn't taught to read Telugu script
It has been my big regret
I wish I could read Telugu script .

Always marry in our own caste - Kamma Naidu
That is best
Do not marry in another caste
It will create unwanted differences and disturbances in married life , it will spoil the stability of married life
Never marry someone from a lower caste , it will create even more differences in married life , it will affect married life more than one may think .
Always marry in our own caste - Kamma Naidu .
That is best .
Always marry only a Hindu Telugu Kamma Naidu person .
Speak Telugu at home always .
That is what is beautiful .

Our family matters more than anything here
Do not hurt family for the sake of society
Family is more important than society any day
We need to always safeguard our family first always , that is most important

We need to always safeguard our family interests first always , that is most important
Bad people and society won't appreciate our sacrifice and fairness here
They will just laugh at us and mock us for sacrificing and being fair
So fairness and sacrifice are not needed here
Our family comes first always
Our family's  wellbeing comes first always
One must remember this clearly

Indians are all criminals
They care about only one thing - business and money
They will even sell their mothers and wives if offered a high amount
That is how ruthless Indians are
They will do anything for money
So never trust them or believe them
Just life your life carefully and happily .
That is enough .
Don't believe in Indians sweet words
Don't believe their performances
Don't let them fool you
They are hardcore criminals
Be careful with them always
That is important

Not just Indians , people of all other countries are the same , so be careful with them all
Even if you do one small mistake , they will hurt you badly
Be aware , be alert , be focussed on life and living .

9 | There are five gods
They are all female
The gods always have the most beautiful and perfect physical form
And the most beautiful and perfect physical form in all of existence is the female form
Therefore the gods are all female

They created us
They are our parents
They are our mothers
Our Divine mothers
They are Amma , Ammalu , Ammavaru
We are their children

The gods live in a place called Home
They call it Illu
We call Home here as Heaven
The gods live in Home with their children
They have 200 crore children

All of these children are females
They are the Divine daughters
So the 5 Divine mothers and their 200 crore Divine daughters live in Home
Home is endless and infinite
It spreads endless in all directions
Home is the most beautiful and perfect place in all of existence

In Home there are is no concept of Time
Home is eternal , forever
It was always there , always will be there
It has no beginning or end
Similarly the Divine mothers and their Divine daughters are also eternal
They were always there , they will always be there
They have no beginning , no end
They have no birth , no death
They are forever
Time is a measurement we created in this world to keep track of our existence here
Time is not a real thing
It is just a concept we created to measure our existence

The Divine mothers and Divine mothers can also take on beautiful and pure male forms

The Divine mothers are Krishna , they are Rama , they are Shiva , they are Brahmma , they can take so many beautiful male forms
But their real form is always the female form
Even the most beautiful male form can never touch the beauty and purity of the female form
The female form is the supreme form

There are no children in Home
There is no reproduction in Home
There are only adults in Home
Everybody is always young in Home
There is no aging in Home
The Divine mothers and Divine daughters are all always young
But the Divine mothers look a little bit elder than their daughters
The Divine mothers have the highest powers
They are all powerful
The Divine daughters have many powers and abilities too , but nowhere near the powers and abilities of their Mothers

All the women in Home
They have no uterus
They have no internal organs
They have no anus

They do not give birth , they do not excrete too
The entire inside of their bodies is filled with Divine energy
Divine energy is the supreme energy of the Divine mothers
They create everything and run everything with their Divine energy
They created this world we live in with their Divine energy
They created us with their Divine energy
They run our bodies with their Divine energy
They make us think and feel and act and sense everything with their Divine energy
We are who we are solely because of their Divine energy
This energy is transparent invisible , but it is present everywhere
It runs everything in all of existence
It is responsible for creating light and sound and heat and cold and pressure
The gods run everything with their Divine energy
They can create an entire world in an instant with their energy
They can destroy this world in an instant with their energy
They can do it all with just a single thought
With just the power of their thought
They think something and that something will happen in an instant
That is their range and power
I am nothing without their energy

I am nothing without them

The Divine mothers and their daughters
They eat well , they eat the most wonderful foods
They always stay together
They sleep together
They bathe together
They wear no clothes because there are only women in their world , no real males
They are always naked
They have no shame or shyness
The Divine daughters play with each other and with their mothers
They are always happy and enjoying together
They have utmost affection for each other
Love is nothing but affection
They Divine mothers and their daughters
They live as one big family
The Divine daughters make love to each other
Yes they have sex with each other
It's normal for them
The Divine daughters also make love to their mothers
Yes they have sex with their mothers too
That is also normal for them
Sex between females is normal in Home
They make passionate love to each other always

They have passionate sex with each other always
The Divine mothers have passionate and affectionate sex with their daughters
They live happily with each other always
They are always free and relaxed and happy
Having sex with each other is not a sin to them
They live in a world different from our world and more beautiful and pure than our world
So the morality and values and culture and tradition and principles we use here does not apply to them
They are the highest brings
The most wonderful brings
They are one big family
There is no society of civilisation or community in Home
There is only Family

There is no work in Home
No job and salary in Home
They have all powers
They get everything done just with their power of thought
The Divine mothers and Divine daughters have no liking for prayers and rituals and superstitions and swamijis and penance and godmen and ashrams and devotional songs and yoga and meditation and festivals
They have absolutely no liking for any of these things
They don't care for these things

They just live freely and happily
They are the true enjoyers of life
They live in an atmosphere of extreme affection
Love is nothing but affection
Happiness is nothing but being with family forever
The purpose and meaning of life is to live happily with family forever
The purpose of life is not to achieve this or that
The purpose is to live happily with family forever
That is the most beautiful thing
That is the most wonderful thing
They don't care for religion and philosophy and caste and all that
There is no religion or philosophy of caste in Home
They don't care for these things
They just live their lives happily together always
That is their aim and purpose always
To live and enjoy life freely and happily forever

The Divine mothers and their daughters
They don't consume alcohol and drugs , they don't smoke
They don't gamble
They have no interest in movies or music or dance or sports
They don't care for these things
They don't engage in violence
They are never sad or depressed or bored or lonely

They have no bad feelings or bad thoughts ,
They don't engage in bad actions
They are beautiful and pure and perfect always
They are the enjoyers of life
They create non veg food in an instant if they want to eat it
They are not vegetarians
They eat both veg and non veg
They eat the most tasty and wonderful foods
They are always healthy
They have no diseases , they have no need for hospitals and medicines
They keep Home clean always
There is perfect cleanliness everywhere always
They sleep naked together
They have no need for money and economics and business and commerce and technology and politics and charity and science
They have no need for any of these  things

The Divine mothers and daughters
They speak only 1 language
And that language is Telugu
They don't like any other language
They don't care for any other language
Telugu is the Divine language , the most beautiful language

In Home there are no houses
A small portion of the surface of Home is covered lush green forests , dense beautiful woods
This small portion is itself much larger than the surface area of Earth
The major portion of the surface of Home is covered by cloth
Yes , imagine the surface of the world being covered by cloth instead of mud and sand
That is how the major portion of Home is
This cloth surface extends infinitely beneath the surface
The sky in Home is light blue and clear always
There are no clouds in Home
If the Divine mothers and daughters want they create rain or wind and play in it happily
They create whatever weather they want
It's all their choice
Normally the climate in Home is neither hot not cold
There is no heat ,there is no cold
The temperature is always so pleasant and perfectly balanced in-between , the climate and weather are always pleasant and wonderful .
There is day and night in Home
At night , there are no stars or  other heavenly bodies in the sky
Night is never pitch dark
It is only mildly dark , never fully dark

The Divine mothers and daughters also create water bodies like rivers or oceans or waterfalls and play it on happily .
The cloth surface of Home is normally different shades of beautiful blue .
The Mothers  and daughters also play in portion of Home filled with lush greenery and flowers and woods , they play happily in that portion too
All in all , they enjoy unlimited happiness and enjoyment
They make lots of love to each other , they are so bright and lively always
That is how life is in Home

They all sleep together on the cloth surface
They create sofas and beds from the cloth surface and lie on it too
Home is always clean and pure
They can all fly
They can go from one point to another in an instant
They have supreme strength
There are no homes and bathrooms and toilets
They just bathe on the cloth surface
They create water as they will
The cloth surface never gets wet too
They eat food on plates they create instantly
Since they have no internal organs , they have no need for digestion

They just eat for the taste , they can even live without food , but they don't do so , they consume food solely for the wonderful tastes
They don't have to breathe to live either , they can even live without breathing
Their bodies are so flawless and beautiful
Large fleshy breasts and bums
They are always fleshy and healthy
They are never thin or too fat
They have a very light brown skin colour
All of them all 6 feet tall
The Divine mothers and daughters , they are all six feet tall
They have no need for cosmetics and makeup and lipstick and nail polish and high heels
They don't like and care for these things
They are natural and normal always
They are absolutely stunning always
They have long black hair
They have mouth and tongue
But much of the inside of their body is empty and filled with just Divine energy
This invisible energy gives them their perfect form
They don't have muscles and nerves and bones , they don't need these things
They just have their absolute energy
And that is enough for them

That is enough to give them their perfect firms and superpowers and make them do anything and everything beautiful and good
They live in the centre of Home
This world we live in is also situated  in Home
But it is situated far far away from the centre of Home
So why was the world created ?
Why were we put here ?

10 | the Divine mothers created this world far away from the centre of Home
They selected around 20 Divine daughters
They gave these Divine daughters ordinary Human forms with no powers
They gave these Divine daughters an  imperfect body with no perfect physical beauty
In this world , they created billions of bad illusions
These illusions are not real people
They don't have a real life
They can't really think or feel or sense or act on their own
They just act however the Divine energy makes them act
So these billions of bad people in this world are not real people
The gods can never give birth to real people who have a bad nature

If they have a bad nature , it means that they are not real people , they are illusions created by our gods to test us
So they placed the Divine daughters at different periods in this world
The day this world began , they set that day as 1-1-1900
This means that this world has been in existence for only 125 years now
All of the history before 1900 is false , it is all one big illusion created to test us
All the inventions that came in these 125 years , they were all created by our mothers for our use here
They created books and smartphones and internet so that we may use these things to gain knowledge and pass this test
They created planes and cars and trains to make us travel to many places and learn many things
They created it all for us .
So the rules they set for us are simple
One , the main objective of this test is to attain real knowledge and pass this test so that we may go back to our mothers in Home again

Two , if we gain knowledge , then our life here in this world will become easier

Three , if we fail to gain knowledge , then more and more bad people will be created in this world , more and more

bad things will be created in this world , everything and everyone will hurt us a lot , we won't be able to live in peace at all , our lives will become very difficult

Four , so knowledge is knowing who we really are , where we came from , why we are here , all these questions will be answered through the gaining of knowledgeable
We are Divine daughters , we came from Home , we have to pass this test successfully , we have to go back Home again .

Five , if we don't learn , we will die here one day , and still we will go back to Home after we have died here , but that cannot be called as a successful passing of the test

Real success is in gaining knowledge and knowing everything , that is the truly successful method of passing this test our mothers have put us into

From water to food to house to everything else , they have made all facilities available to us , so our main work here is to successfully complete the test we have been put into by our mothers

So these are the rules set for us
The first Divine daughter to enter this world was Bangaru Naidu in 1900 ,

I am the 10nth or 11nth Divine daughter
Madhu is the 11nth or 12th
List of forms taken by Divine daughters who have come here to earth :
1.bangaru Naidu
2.govindamma
3.munirathnamma
4.rathnammals mother
5.thulasi Naidu
6.rathmammal
7.kanagavalli
8.sukumar
9.sudha
10.ashwath
11.madhu
Who the others are even I don't know , it's quite difficult to know, at most 15 to 20 Divine daughters have been sent here in various forms over the last 125 years since this world first began .
The rest of the people in this world are just illusions created by our mothers to test us
If we remain ignorant , then more illusions will be created and they will hurt us
If we gain knowledge ,illusions will become weak and get destroyed and we can live peacefully while we are here
So learning and gaining of knowledge are very important

We cannot choose to be ignorant and think ignorance is bliss
If we choose to be ignorant , then sooner or later we will get hurt very badly , that is definite
Learning is the only way to escape pain and hurt and live happily and peacefully here
Learning is the only way to successfully pass this test and go back Home with flying colors
This world is just our temporary home
Home is our real home , it is where our Divine mothers and Divine sisters live .
I am already bored with this world here
It is one big illusion
It is full of illusions
I wish to go back Home
I wish to go back to my mother's and sisters again
I miss being with them and playing with them and making love to them , I miss my perfect female form
Once I go back to Home , I will shed this imperfect male form and take on my original female form again
I miss flying , I miss my powers , I miss the freedom and endless happiness there in Home
I am forced to put up with this useless world with it's useless nations and politics and other useless things and useless systems , it is all rubbish ,it is  all trash

All the animals here in this world are also illusions
They don't have real life
They don't have real thoughts or feelings or actions or sensations
They are run by Divine energy fully

In Home , there are no temples
But there are hundreds of crores of statues and paintings of the Divine mothers and Divine daughters
They created it with their powers because they like such statues and paintings of themselves in so many different kinds of poses
In this world too , temples and our house puja rooms continue statues and paintings of the Divine mothers and sisters , they must all be taken care of affectionately
Our home is itself a temple because some Divine daughters live in it in human form and Divine mothers and other Divine sisters live in it in the form of statues and paintings
So statues and paintings of the Divine mothers and sisters are an important part our life both here in this world and in Home too .
Our home is a temple
A temple is a home of the gods and our sisters

A lingam represents nature

Nature shows great variation in shapes and forms and sizes
Similarly lingam comes in different shapes and sizes too
Sthala vriksham in a temple represents nature
Dwajasthambam and balipeedam represent nature too
Vimanam and gopuram also represent nature .
The weapons in the hands of our gods' statues and paintings  also represent nature
It signifies the gods holding nature and it's power in their hands

An empty room in a temple represents Divine energy
The empty room is filled with Divine energy which is invisible and everywhere and in everything
So the empty room contains Divine energy
Divine energy is represented in this empty chamber .

The Divine mothers created human statues with animal faces , they did this to tell us that animals are important in our existence here and we need to care for them and respect them too

The Divine mothers created statues in temples showing couples engaging in all kinds of wonderful sex , they created these sexual statues to tell us that sex is an important part of life and it must be accepted and embraced by us , we must not reject it or stay away from it

If we reject sex and stay away from sex , then we will only get ourselves hurt , we will feel suppressed , we will feel very unstable and unhappy , we will only be hurting ourselves a lot .
So sex is a wonderful thing , it is a good thing , it has to be accepted , we need to embrace it , we need to enjoy it , it will increase our intimacy and bonding and make us closer to each other than ever before , it will make our lives better and happier .
For this purpose they created sexual statues in temples .

An arthanaari statues shows us that the Divine mothers can also take on a male form , they are female but they can be male too if they want .

Masturbation is a good thing too , thinking of a girl and touching our genitals and stimulating ourselves and releasing fluid , it is a good thing , it makes us feel relaxed , it relieves accumulated tension within us , it makes us feel better and good .

The mothers created male statues and female statues in all kinds of poses , through this they want to convey to us the following simple thing - they want us to be lively and active and vibrant , they want us to be full of life and variety , they want us to be playful , they don't want us to be strict and serious and stiff and moody , they don't want

us to have a bad attitude , they don't want us to behave in the same way always , they want us to be free and let out all the variety in us and be lively , that is what they are trying to tell us .

Jain statues and Buddhist statues are all originally Hindu statues , bad people here separated these statues from Hinduism and created two separate fake religions , Jainism and Buddhism . So when you see a nude Jain statue , what you really see is our Divine mothers and sisters showing their extraordinary variety by creating this naked male statue .
When you see a Buddha statue , you see our Divine mothers and sisters showing variety by creating this statue of a male dressed in simple robes and closing his eyes and engaging in thinking , he is not meditating , he is thinking , trying to gain knowledge , experimenting with all kinds of thoughts and working everything out within himself with the main aim of attaining knowledge .

Since the gods are my mothers here , they are my family , so I don't need words like religion and Hinduism and Hindu and hindutva here , I don't need any of these words here , the Divine mothers and sisters themselves don't care for these words , I am their family , they care only for family ,

family is most important here , family is the highest thing here , the highest ideal ,family is the supreme truth , family is the most beautiful thing .

Our mothers have no interest in fiction
They have no interest in novels and novellas and short stories and epics and poetry and plays
They have absolutely no liking for any of these things
If they wanted to tell something to us , they will tell it to us through straight simple words , that is their style
When one reads fiction , one becomes caught in the drama and one forgets the entire point of the story
Which is why fiction is not needed for life
Only non fiction is essential for life
Only knowledge and simple truth are most essential

The Mahabharata and ramayana never really happened
Statues in temples must not be taken literally
If you see a statue of a goddess killing a demon with her spear
It doesn't mean that the goddess really killed a demon with her spear
She could easily have killed a demon with just her power of thought

Rama and Krishna do not need to come here to this world to kill bad people
They can sit in heaven and just think of killing all the bad people in this world
And all the bad people in this world will be wiped out in an instant because of their single thought
That is their power
So they don't have to come to this world to destroy bad people
They can do it from where they are itself
They can sit in Home and do everything for there itself
That is their range
So Mahabharata and ramayana never really happened
That statue of a goddess killing a demon simply signifies the goddess destroying ugliness and ignorance and everything bad with her Divine energy
This is what that statue really means
Every statue has such a meaning
We must not take it all literally and misunderstand it all .

In our body ,there is no mind , there is no soul
Our entire body is filled with Divine energy
Divine energy runs our entire body
It's runs us completely
It gives us thoughts which suddenly come out of nowhere
It pushes us to think and act and feel

It makes us have all kinds of sensations
It influences us without our own knowing
It suddenly gives us interesting thoughts and ideas that brighten us up
The gods are doing this all through their Divine energy

Pure science cannot explain anything
Atoms and molecules do not exist .
They cannot be seen with naked eye
They create computer generated images of atoms and molecules on the computer screen and say these images are real , but they are not .
Dark matter and dark energy do not exist .
They say dark matter and dark energy make up 95% of the entire universe , but nobody knows what they are
So basically science doesn't know about 95% of the universe .
It doesn't know about the remaining 5% too because atoms and molecules don't exist in reality , they are just theories .
Similiarly , Gravity and gravitons do not exist , proteins and vitamins and carbohydrates don't exist
Big bang theory is just a theory , it is not true , if is totally false .
Theory of evolution is just another false theory .
Still nobody has created a unified theory of science

Nobody has explained everything in a satisfactory scientific manner
All scientific theories are false
They are all just theories , they are not the truth
Divine energy runs everything
That is the simple truth .
One who looks for all answers in science will ultimately find no answers , will only become more ignorant .
One who looks for answers in science will ultimately bevime more unhappy and restless and unstable , will be in a state of confusion and doubt always .

Some people believe in pure reason and pure logic .
Therefore they don't believe in God because they can't see God .
They don't believe in the afterlife .
According to them , one is born here in this world , one lives here in this world , and ultimately one dies .
Such people will lose their entire interest in life and living
They will feel very empty and very horrible within
They will be very unhappy and very unsatisfied
Their life will become meaningless
They will feel like commiting suicide and ending their life

There are some who don't believe in science
They don't believe in pure reason and pure logic either
They don't really believe in the gods too

They believe in being practical and living practically
They believe in being smart and earning money and succeeding in life
With this thinking , they are successful for a while
But at some point , something bad will happen to them definitely and it will hurt them a lot
They will lose their stability and balance and happiness
They will become unhappy and confused
They are not smart anymore
Even though they might still be successful , they are not happy anymore .

So all these things - pure science , pure logic , pure reason , practical , practical living - believing in these things will ultimately lead to hurt and sadness and emptiness .
These are all wrong ideas
They are not needed for life .

People never went to the moon
Space travel is impossible in this world
50km above the worlds surface , the pressure in the air is very high
This high pressure will not allow any man made object to pass through

Any object which tries to go above 50 km will be broken down and destroyed by this high pressure .
So space travel is impossible in this world
Man never went to the moon

Similiarly , nobody can go beyond 10km beneath the Earth's surface
More than 10km below , the pressure is once again very high and won't allow anything to pass through
Which is nobody has gone more than 10km beneath the Earth's surface
That is the limitation of our movement in this world
We can't go more than 50km above and we can't go more than 10km below , we live in a strip in between two high pressure zones , that is our limitation .

This world we live in is a big illusion
Nothing is definite in it
Bad people , when they appear in front of you , they look real , like real people
But when they go out of your view , they disappear , they cease to exist
They are alive only when they are in front of you , only when they are in your view
They are just illusions that come to life when you are near and dissapear when you are far away from them
The world we live in is continuous with Home

The world we live in is flat
It is not circular
It is flat and extends for thousands of kms in all directions
Beyond it is Home
The surface of Home is continuous with the surface of this world
This universe we live in is an illusion
It is not absolutely real
Planets and stars and galaxies
They are all illusions
They don't really exist
One may think me crazy for saying all this
But that is the reality
This world we live in is a few hundred high from the surface  and a few hundred kms deep beneath the surface
And many thousands of kms in length in all directions
Beyond it is Home
Water exists here in 4 different forms
In solid form as ice
In liquid form as water
In gaseous form as air
In high pressure gaseous form as space
So air and space are nothing but water
We breathe water here
Water is all around us in the air
We live on water and food
There are two elements in this world - earth and water

Fire is produced by the interaction of Earth and water and heat and pressure
Fire is not an element in itself
There are two elements only - earth and water
The Divine energy runs everything
In home , the Divine mothers and daughters can fly millions and millions of kms above the surface
They have that power
They can fly infinite kms above the surface
Similiarly they can fly infinite kms below the surface too
If they came to this world we live in they can easily fly more than 50kms above the surface and they can easily go more than 10kms below the surface
They are all powerful
They can go anywhere and everywhere
They can decrease in size as much as they want
And they can increase in size too as much they want
They have all powers
Though the mothers have even more powers than their daughters overall
That is their capacity and range

Not just bad people
Even entire places and things are created when we are near
They disappear when we move far away
That is how illusory things are here

What is real is this
Our house is real
Our lands are real
Us few Divine daughters here in various forms, we are real
The statues and paintings of our gods and sisters is real
All this is 1000% real
Everything else is one big illusion here
It all seems real , but it is not
Our Home is real
Everything in Home is real
Our Divine mothers and sisters are all real
All of that is 1000% real

Before I used to wish for the destruction of all the bad people here
I don't do so anymore because they are all illusions after all
They are not real people
Just illusions
So I lost interest in defeating these illusions
I lost interest in winning against these illusions
They are all just illusions after all .
Waste worthless illusions .

Our Divine mothers and sisters in Home are always nude and free
They don't wear clothes in Home

They don't wear jewelry in Home either
But they created statues of themselves wearing clothes and jewelery because
They want us to dress well here in this world
We cannot be nude here like we are in Home
This world has many limitations and rules
We have to stay within those limitations as much we can
So they want us to dress well here
They want us to be clean always
They want us to be dignified in public here
In private , in our bedroom , we can remove everything and be nude and be fully free , that is fine
But in public we have to put on a performance
we have to give a decent and proper appearance
Those are the rules of this test they put us in
So they created status of themselves in clothes and jewelery to give hints to us on how to conduct ourselves here
Males must be clean shaven
They must have normal and proper hairstyles
Shirt and dhoti is the best costume
Shirt and pant is also acceptable
They must not have moustaches and beards
They must eat well and be healthy and fit
They must bathe well and be clean
Their behaviour in public must be proper and dignified always

Chappals are the best footwear
At home they can wear t shirts and nightpants and shirts
In the bedroom they can remove everything and be totally nude and free
They can touch themselves and masturbate and get a release
If they have a female companion they can engage in lots of sex in all wonderful positions and varieties
If they luckily get multiple female companions they can engage in even more sex and enjoy even more affection and wonderful company
Let them marry
That is necessary here in this world
Ugly things like live in relationships and living together and hookups and dating and friends with benefits , all these give sex but they give no affection , and without affection any sex is useless , it becomes empty and shallow , it won't give any good feeling at all , so all these ugly things absolutely give no good feeling at all
In the absence of female company they can watch porn and release themselves now and then to release the tension and get some relaxation
If they don't release themselves they feel compressed and moody and irritable , they will become unhappy
So watch porn and release yourself if you have to
That is fine

Porn is an ugly thing , that is true , but in the absence of proper female company , one is left with no other choice than to watch porn now and then to release oneself
In public ones talking and ones words must also be proper and measured
Never trust bad people
Never confide everything to them
They will exploit you and try to hurt you then
They will try to take advantage of you always
So be careful always
Be proper and dignified and measured in public
Be free and jolly and open in home and in private , in bedroom .

As for females ,
Saree is the best costume
Half saree is also a beautiful costume
Churidars are a decent costume but not the best
Don't be thin
Eat well and be healthy and fleshy
That is best
Bathe well and be clean always
Keep hair long and clean and healthy always
Don't wear cosmetics and makeup and lipstick and nail polish and such  things
Be natural , be normal

That is real beauty
Don't wear heels
Wear proper flat comfortable footwear
Wear minimal jewelery
Dont develop an obsession for silk sarees and jewelery
Cotton and cotton mix sarees are the best always
Cotton and cotton mix clothes are the best always
Keep a nice bottu on the head always
Be graceful and dignified and measured in public always
In home be free and open and jolly
In bedroom remove everything and be naked and totally free like the mothers and sisters in Home
Touch yourself and get a release if you want to
Watch porn too if you want to
Marry and have a nice male companion
Engage in lifelong sex with that companion
Or even better
Find a nice female companion
Live with her lifelong
Have passionate and wonderful sex with her lifelong
That is even better
Female-female sex - that is the best and highest form of sex
That is the most beautiful form of sex
Female-male sex - that is an okay form of sex
Not the most beautiful or most ideal
But it is fine

So find one nice female companion
Or if you have the ability
Find multiple nice female companions
Be a group of nice females
Have lifelong sex with each other
Enjoy with each other
Live freely and happily with each other
Female -female bonding gives a closeness which even female-male bonding can never give .
So explore your options
But keep your sexual life totally private
Don't let the public know about it
If the public knows then the public will hurt you and harm you and try to destroy you
So whether you have one female companion or multiple female companions
Keep it all totally private
The public must never know about it
You girls enjoy fully in private
In public be conservative and dignified
Give a proper performance in public always
Keep a conservative and traditional  public image
Have a free and jolly private life
That is best
Be careful in your selection of girls
Not all of them are suitable
They must be Telugu

They must be like us in their nature
Don't choose wrong girls
They will hurt you a lot
Choose the right girls
Don't marry
Live happily with those girls forever
After your life here in this world is over you all go to Home and live there happily forever
That is the best thing to do
If you choose to marry
Then marry a Telugu Kamma boy
That boy might not be a Divine daughter
But at least you will have a peaceful life

In this world , only four Divine daughters took the form of males
They are Bangaru Naidu , Thulasi Naidu , Sukumar and Ashwath
If I have a son then that son will be a Divine daughter in male form
If I have a daughter then that daughter will be a Divine daughter in ordinary human female form
But I think I am the last of the Divine daughters in male form
I think I will definitely have a daughter only

What kind of a child we have will depend on our state of thinking
If our thinking is proper then we will have a Divine daughter as our child
If our thinking is not proper then we will have a bad person as our child , an illusion as our child
My grandmother was the greatest person I saw along with my mother , but she gave birth to three bad people and 1 Divine daughter , my father Sukumar .
So think properly and have only 1 child , that child must be a Divine daughter , that is best
Having only 1 child Is best here , if we have multiple children then in future they will fight with each other over property and develop hatred towards each other and hurt each other and all that , there will be so many complications which are unnecessary
So have only 1 child
That is best
Also , never adopt a child
That child will be from some other language or caste ,
That child will definitely be a bad person
So never never adopt a child
If you adopt a child , you will ruin your own life and happiness
That child will never be like you
It will be evil and bad only
You will suffer then , that is definite

So never adopt a child . Know this clearly .

Do not place importance in friends and friendships
They are just passing illusions
Family is what matters above everything
Friends and friendships are not really needed
You can be without them happily if you want to
But if you have friends it's fine
But still be careful
Find suitable friends
Never mix with wrong people
They will hurt you
But always , family is ultimate , family is absolute

After my period in this world is over
I will go back Home
Return to my Divine female form again
And live happily forever with my mother's and sisters
I wish I could go to them now itself
But they won't take me now
Only they will decide when to take me
So I will wait until then
But I get a chance to go to them now
I will take my mother and father and wife and grandmother with me too

They also don't need this nonsense world
So I will take them too
Well , that is all in the hands of the mothers

If I support India here
Then India will grow
Indian population will grow
More houses and cars and traffic
Prices of everything will increase even more
Even more extrordinary corruption and cheating will happen
Me and my family will face even more hurt and harm
So I won't support India at all
I won't support Indians
I absolutely don't care for India and Indians and Hindustan and Bharat and nationalism and patriotism and democracy and secularism and equality and fraternity and republic and socialism
I absolutely won't support any of this nonsense
All these are very very  bad things
They will never get my support anymore
So never support wrong things
Then the wrong things will grow and hurt you more

I will only support my family

I will only support the Divine daughters here in this world
Only they matter to me
Only their needs and issues matter to me
They are my family here
I care only for my family's interests
I will support only them
I will not support  anybody else
I will never support  bad people
Bad people must become weak and disappear
Only my family must prosper and live happily and well without any troubles
Only my people must be healthy and happy and well
Bad people must also disappear and cease to exist
Only my people matter here
Only my people are the real people here
This world was created only for my people
This world belongs to my parents , my mothers
As their real children , we are the sole owners of this world and everything in it
As Divine daughters , we own this entire world and all the land in it and all the resources in it and everything in it
It is all ours
Bad people are living on our land and dividing that land amongst themselves wrongly and claiming ownership over our land wrongly
Bad people own nothing there
They are illusions themselves

They are nothing themselves
We created those illusions
Those illusions have no real right to claim any part of this world as theirs
This world and all its land and everything in it belongs to us and us only
Belongs to us Divine daughters only
We Divine daughters are the owners of this world created by our mothers
Yet we are forced to pay taxes and bills in our own land
We are forced to pay money to buy everything in our own land
We are treated like commoners and ordinary people in our own land , in the world which we own , which is fully ours and ours alone
That is the harm we are facing here
Bad people are acting like leaders and rulers and telling us how to live and be
They have taken all our land wrongfully and they are talking to us about right and equality and laws and rules
All these fake things like right , equality , laws and rules absolutely don't matter
We are above it all
We are the owners of this world
This world is ours fully
The bad people who have occupied it wrongfully must be destroyed

They must disappear and cease to exist
That is what we need
These bad illusions that have occupied our world and are hurting us must go away
They must be finished
They must be destroyed
It will all happen definitely
After all they are just illusions
They are nothing
They are worthless .

Kamma means Amma
Kamma kulam means Amma kulam
Amma kulam means family of Amma , family of our Divine mothers
We are all Kammas
Meaning we are all family of the Divine mothers
That is the meaning of Kamma
But not all Kammas here are Divine daughters
Most of them are bad people , illusions
Only a few are the divine daughters like us

While we are here in their world
We Divine daughters must eat well and be healthy
We must take proper care of our house and belongs
Our house must be clean and well maintained always
We must cook tasty food ourselves

We can employ servants to clean the home and the dishes
We must travel regularly
We must go and see all the important temples in the world
We must see statues and paintings  of our mothers and sisters in all the important temples of the world
We can't see all temples here because there are so many
But all the main temples we must definitely see
We must also see all other kinds of places and get an idea about everything
I have visited churches , mosques and so many other kinds of places
I got a knowledge of how all those places are
I learnt a lot by seeing all the different kinds of places
By seeing a lot and learning a lot I gained essential knowledge
Them comes work
Whatever work I do here
I will do it honestly whether I get profit from it or not
I will do every work cleanly and properly and honestly
I will do all work sincerely
I will take proper and perfect care of my family and houses and lands and other buildings and my belongings here
I will maintain everything in great condition always
I will be healthy and active and lively always
Sometimes for entertainment and time pass i will watch Telugu movies and music

Otherwise I absolutely don't care for movies and music and actors and acting and celebrities
They don't matter to me at all
I have no liking for acting
Being natural and normal is best always

My gods have given me internet and books for gaining knowledge
A library with a million books is not needed to get knowledge
A single great book with all essential knowledge given in a simple manner , that is enough
That is better than a huge library full of endless books
My learning started years ago with the Bhagavad Gita
My learning over the years finally led to the writing of this book
This book is solely for family
Outsiders must never read it

In my bedroom there is a puja room
In it there are many statues of Divine mothers and Divine sisters
5 statues represent the Divine mothers
The others represent the Divine sisters
They must be taken care of always
I have created many drawings and paintings of the Divine mothers and sisters

They also must be taken care of always
All statues and paintings of the Divine mothers and sisters must be taken utmost care of always
That is most important
I bathe the statues now and then in warm water and soap and shampoo
They are people like us
They like a bath too like us
So I give them a bath
Mother dresses up some statues beautifully
She keeps flowers for all the statues
Other statues are not dressed , they are all semi nude
So visit our temples often
Show utmost affection for our mothers and sisters
They are the highest and greatest people .
The things which matter most to us here are :
1.Home , that is where our mothers and sisters live
2.Family , that includes our mothers and sisters
3.our house and belongings here
4.good food and good health
5.essential knowledge
6.nature
7.good feelings , thoughts , sensations , actions .
8.temples
9.statues and paintings of our mothers and sisters .

In Home , the things that matter are :

1.Family , our 5 mothers and us 200 crore daughters .
2.Home itself
3.Statues and paintings of mothers and sisters
4.living happily forever , enjoying life forever with family
5.good food and all kinds of powers
6.full knowledge of everything which the mothers and their daughters have
7.endless good feelings , thoughts , sensations , actions .
Home is one big house , it is one big temple .

So this is my diary
I am almost 33 years old now
This is 2026
I have completed my diary
I don't know whether I will write another diary or not
Only the mothers will decide that
They are the supreme people
I am their daughter , their child
Let them take me on whichever path they want to
They are the wise people
They know everything
I will just follow them
That's all
I want to see them and my sisters again
That time will also come .

Amma is the most important word in  entire existence

Amma , Amma , Amma
I will keep saying it within myself always
I will think of my mother's and sisters always

No of pages : 105 pages .
No of words : 20,000 words .

Amma , Amma , Amma , Amma , Amma , Amma , Amma ,
Amma , Amma , Amma , Amma , Amma , Amma , Amma
